0760339416

## *PROFILE*

Applying for such high caliber post gives me opportunity to gain necessary experience in the field I want to become an expert in. I will most definitely be an asset in the workplace as it will be my prime time of learning, turning challenges into unprecedented opportunities. With exposure I am about to gratefully receive from this work, will enable me to have experience.

## *PROFESSIONAL EXPERIENCE*

**January 2022 – November 2023 tutoring at the Bophelong library**

### Main duties

Following my redundancy, I am spending time teaching matric learners' tourism and computer applications technology, developing my professional communication skills.

### Key achievements

- Increased my time and teaching skills as a tutor by taking challenging subjects and making them easy for my students.
- For every learner that I have helped thus far, their grades increased by approximately 25% in both Tourism and Computer Applications Technology.

I am a highly motivated individual with great interpersonal skills and a proven ability of interacting with groups and leading my peers have been one of my greatest inspirations. I am fully conscious that I am still youth and bursting with energy, and it is my wish and desire to find a company that will lead me to realise my full potential and have an abundant life. I have a clear, logical, and practical approach which allows me to complete large volumes of work in a high-pressure environment. If given great workplace and an environment that has a certain level of receptivity, I will positively grow my experience and become an expert in my field as this will make me become a better person.
